

# Glenwood Reconstruction Project

## Americans with Disabilities Act Accommodations

Project staff have conducted an initial inventory of accessibility challenges that are present along the roadway, sidewalks, and crosswalks throughout the project area.

Key actions for making Glenwood's transportation system accessible for all users:

- Inventory accessibility challenges for business accesses and residential connections to sidewalks
- Coordinate with business/property owners on options for achieving Americans with Disabilities Act (ADA) compliance
- Confirm actions to be taken for the project design will achieve ADA compliance at these locations
- Secure agreement by business/property owners to either complete private work themselves, or an agreement to include improvements in the project, with necessary easement and financial contribution through the City of Glenwood.

Steep Grades

Cracked and uneven sidewalks

Access Issues
