

TMS / ITS Approved Products List

Rack Mounted Fiber Optic Termination Panel (LC)

The fiber termination panel shall meet these requirements:

1. 16-gauge steel construction with a black powder coat finish;
2. Standard recessed mounting brackets designed for EIA 19 inch racks;
3. Dimensioned as 7.30 inches deep (8.30 from rail when mounted in rack);
4. 12 inches wide and 1.74 inches high;
5. Contains two 6-port snap- in adapter plates. Each adapter plate contains 6 LC duplex SM adapters with ceramic alignment sleeves.
6. Contains a splice tray and accessories for protecting only 12 splices;
7. Provisions for grommets for cable protection at entrance and exit to panel.
