<b>Design Plans:</b> Design Plans are the complete, certified bridge plans containing the type, size, location, etc, of the pedestrian bridge, in addition to the abutment design and survey information. These plans are to be submitted as a part of the contract documents prepared for the project's letting.				
<b>Superstructure Plans:</b> Superstructure plans are the certified design plans of the Pre-fabricated bridge superstructure, provided by the contractor, based on the details and Performance Specifications found in the Design Plan and Special Provisions.				
<b>(1)</b> This is a Mn/DOT Trunk Highway Project. Project number is in the form of <b>SP</b> XXXX - XX.				
<b>(2)</b> This is a local highway project with Federal funding. Project number is in the form of <b>SP</b> XXX - XXX - XXX.				
<b>(3)</b> This is a local highway project with State funding but <b>no</b> Federal funding. Project number is in the form of <b>SAP</b> XXX - XXX - XXX.				
<b>(4)</b> Project is locally funded and contains <b>no</b> State or Federal money.				

For questions regarding the submittal and review requirements, contact the State Aid Bridge Unit, either Dave Conkel @ 651-366-4493 or Brian Homan @ 651-366-4494.
