Presentation Overview

The presentation will be on the Metropolitan Freeway System 2014 Congestion and what MnDOT is doing to combat congestion with innovative tools like ramp metering, FIRST, traveler information, and MnPASS.

Presenters:

Brian Kary

Brian Kary, Freeway Operations Engineer, has worked with the Minnesota Department of Transportation since 1999 and has a Bachelor of Science Degree in Civil Engineering from the University of Minnesota. His work with MnDOT has included working in Freeway Operations, Traffic Analysis, and Incident Management. In his current position, Brian oversees the daily operations of the Regional Transportation Management Center, which includes the MnPASS system, the FIRST

program, ramp metering, and the freeway operations group.

Jesse Larson

Jesse Larson has a Bachelor of Science Degree in Civil Engineering from the University of Wisconsin-Madison. He has been with the Minnesota Department of Transportation since 2007 and for the past six years has been the Assistant Freeway Operations Engineer at the Regional Transportation Management Center.
