Presentation overview

FHWA has been encouraging states to develop formal TSMO program plans. This presentation will answer the questions: What is TSMO and isn't MnDOT already doing this? Why is a program plan needed? What are the next steps MnDOT is taking?

Presenter

Sue Porter has worked for the Department of Transportation for over 30 years. She currently serves as the Manager of MnDOT's Transportation Systems Management and Operations (TSMO) program as well as overseeing the operations of the Electrical Services Section. During her career she has held many positions including State Traffic Engineer and Operations Engineer at the RTMC. She is also a registered Professional Engineer and certified as a Professional Traffic Operations Engineer (PTOE).
